Academic costs (enrollment and school fees) of the Institute or Hospital under the aegis of this Ministry.

** It is important that applicants get in touch directly with the Hospital or Institute where they wish to study given that some institutes – such as the National Pediatrics Institute – do not cover these costs.*

SRE

- Monthly allowance equal to 5 D.F. minimum wages.
- International air-travel at the beginning and end of the scholarship, as long as there is a reciprocal agreement with the government of the candidate's country.
- Travel from Mexico City to the study center at the beginning and from the study center to Mexico City at the end of the scholarship.
- IMSS medical insurance, effective as of the third month of the scholarship.

IMPORTANT NOTES

** General physicians may only gain admittance to the specialties marked with an asterisk by taking the National Examination for Medical Residence Applicants to be held during the first week of September, 2008. Therefore, candidates must apply for taking said examination as of May, 2008. For further information and to find out about the requirements for the examination, please visit the following website: www.cifrhs.org.mx*

Those interested in studying any of the sub-specialties not marked with an asterisk () must meet the prerequisite of having already taken the corresponding main Specialty in their native countries (Anesthesiology, General Surgery, Gynecology and Obstetrics, Internal Medicine, and Pediatrics).*

In addition, those interested must enroll in the Faculty of Medicine of the University in order to ensure obtaining university recognition for the specialty or subspecialty. The cost of this is charged in US dollars and must be covered by the scholarship grantee.
